

NEW TYPE OF DEMOCRATS MEET BATTLESHIPS HERE APRIL 29 PLANNED

Internal Combustion Engine
Will Make Dreamthoughts
Obsolete

GERMANY CONTROLS SECRET

When Invention Is Perfected,
Navy Will Be Most Formidable in World

LONDON, Feb. 5.—The British admiralty has received news from a reliable source that a type of internal combustion engine has been brought well toward completion by German experts which, if it fulfills the expectations of its designers, should give the German navy an immense advantage in its race for supremacy against the British, as well as other navies of the world.

A prominent engineer, who has learned of the main details of the engine, which its designers have endeavored to keep secret, said to the Associated Press:

"I can conceive that a vessel may be designed using these engines, which would make the latest dreadnoughts obsolete, and it looks as if the revolution were imminent. For such a vessel the radius of steaming might be multiplied by three or four, or the thickness of armor it would carry greatly increased, or the vulnerability much diminished."

"In one of the principal works in Germany a marine plant has been completed, after exhaustive study and expensive experiments, by a most able and confidential staff, which can be designed only for the use of the navy. It is of 18,000-horsepower, consisting of three engines of 6,000-horsepower each; one to each propeller. Each engine has three cylinders, producing 2,000-horsepower each, the cylinders being double acting, the explosion occurring on both sides of the pistons."

Means Abolition of Boilers.
"The incorporation of such an installation in a vessel means the abolition of boilers and smokestacks, also the saving of the space occupied by the funnels, as the engines would require less than one-half pound per horsepower hour, which would mean 100 tons of oil per 24 hours for full power, full speed. A grade of crude or refined petroleum may be used."

"During the last three or four years a great revolution has been in progress in perfecting the reliability, performance of engines and economy of the type of fuel. The principal problem is to obtain perfect combustion, to enlarge the cylinder units, to make the explosion transpire on both sides of the piston."

"Germany has led in the study and evolution of this engine, and is far in advance of other countries. The internal details of such an engine are easily kept secret, and the perfection of a successful counter design by any other nation would necessarily require a long period of experiments."

"It appears to the scientific men who know of this work by the German engineers, that the German navy may have a profound advantage over its rivals in this engine which apparently is nearly ready for use. No other navy, it is believed, has advanced nearly so far in work upon internal combustion engines."

LA FOLLETTE HAS NOT QUIT

Campaign Manager Issues Statement to Effect That Wisconsin Man Is in Race to Finish

WASHINGTON, Feb. 5.—Senator La Follette, despite ill health, will not withdraw from the race for the Republican nomination for president. This was made clear in a statement issued tonight by Col. W. E. Houser, the senator's campaign manager, and chairman of the Progressive Republican committee. The statement follows in part:

"Senator La Follette finds it necessary to take a few weeks rest. This may prevent his making speeches in the states which are to hold early primaries, and his friends in those states will make such campaigns for him as in their judgment will best serve the progressive principles which his candidacy represents."

"Though he finds his plans interfered with by his temporary indisposition, in fulfillment of the implied pledges which his candidacy made to those who have always believed in his sincerity and constancy of his purpose, his name will be presented to the National Republican convention and delegates will make an aggressive contest for his nomination and for a strong progressive platform. To this end, the Progressive Republican campaign committee will devote its best efforts."

"Whatever time Senator La Follette can devote to the campaign, after getting a needed rest for a few weeks, will be given."

BOON FOR HOMES LEADERS

WASHINGTON, Feb. 5.—A bill reducing from five to three years the requirement for settlement on homesteads passed the senate today. The measure has not been considered by the house.

Committee Secures Big
Convention on
First Ballot

Through the efforts of the subcommittee of the special committee of 50 Democrats appointed by the Chamber of Commerce, the Democratic state convention for the nomination of delegates to the Democratic national convention will be held in this city, commencing April 29.

Colorado Springs got the convention on the first ballot at yesterday's meeting in Denver, the vote being unanimous. The chairman of the delegation from Pueblo, the only other city in the race for the convention, just before the executive session of the state central committee, offered a resolution giving the convention to this city and the assembly to Pueblo.

Although a fight in regard to the time of meeting was expected, the Progressives wanting a late convention and the reactionaries an early one, the issue was settled in a peaceable way, all expressing themselves in favor of April 29, and 34 voting for June 4.

The apportionment, which was expected to cause a rumpus, was also settled easily and quickly, and the whole meeting was harmonious. It was decided to allow two delegates from each county and one additional for every 125 votes cast for Governor Shafroth in 1910.

A great deal of credit is due the special Chamber of Commerce Democratic committee for the work it did in securing the convention for this city. The committee of 50 appointed about a week ago did much toward getting the convention by sending out letters to members of the state central committee, but the special committee of 10, which went to Denver last Sunday, clinched the gathering. From the time the members arrived in Denver until the time the state central committee went into secret session, they never ceased work, with the result that the meeting place was practically decided before a vote was taken. The Denver and Pueblo delegates rallied to the side of Colorado Springs when they realized how badly this city wanted the convention.

The state central committee conferred an honor on W. T. Christopher, chairman of the local committee, when it appointed him secretary of the committee, that position being made vacant by the absence of that officer. With the exception of Mr. Christopher, no one but members of the committee, or those holding proxies from members, was allowed to attend the session. The special committee which went to Denver and landed the convention consisted of W. T. Christopher, chairman; H. H. Seldomridge, Mark A. Skinner, Henry C. Cassidy, M. A. Ledy, Judge G. W. Mueser, Judge L. W. Cunningham, H. J. Bishop, A. J. Lawton and M. W. Purcell.

Democrats to Seal 15,166 Persons at National Convention

BALTIMORE, Feb. 5.—Norman E. Mack, chairman of the Democratic national committee, and all but three members of the committee on arrangements for the Democratic national convention to be held here in June, spent the greater part of today in Baltimore in conference relative to convention matters.

The plans for altering the Fifth Regiment armory were approved with some minor changes. The plans call for a seating capacity, exclusive of the delegates, of 15,166 persons or 500 more than at Denver four years ago.

There will be 2,670 seats for delegates and alternates, 350 on the platform and at least 120 in the section set apart for representatives of the press. Seventeen exits will be provided.

The question of hotel accommodations and rates was thoroughly gone into with Chairman Robert Crain of the local convention committee, and representatives of the hotel men. The preparations being made for accommodations of visitors and the scale of prices presented to the committee were approved.

National Committeeman Daniels of North Carolina—himself a newspaper editor—was made chairman of the press committee.

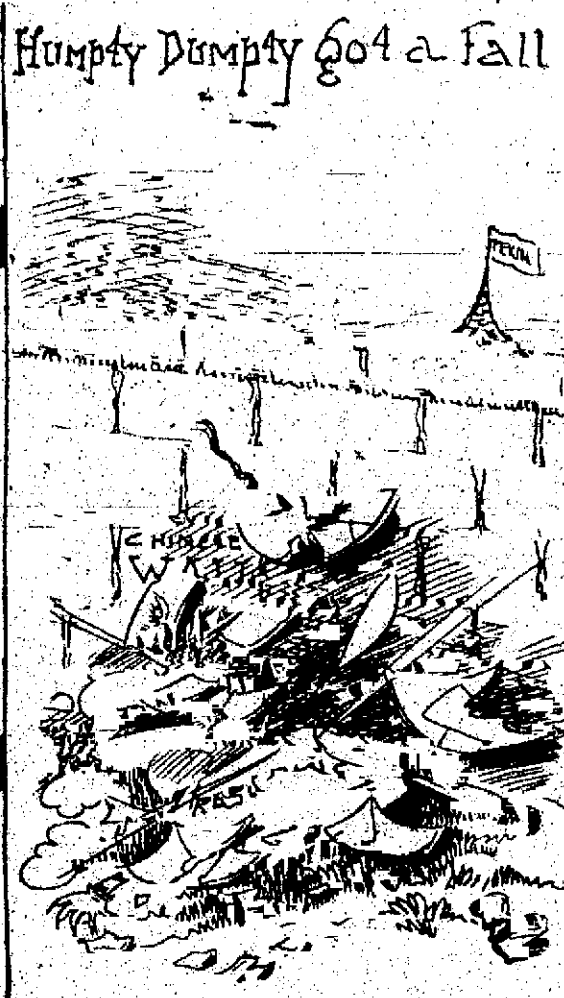

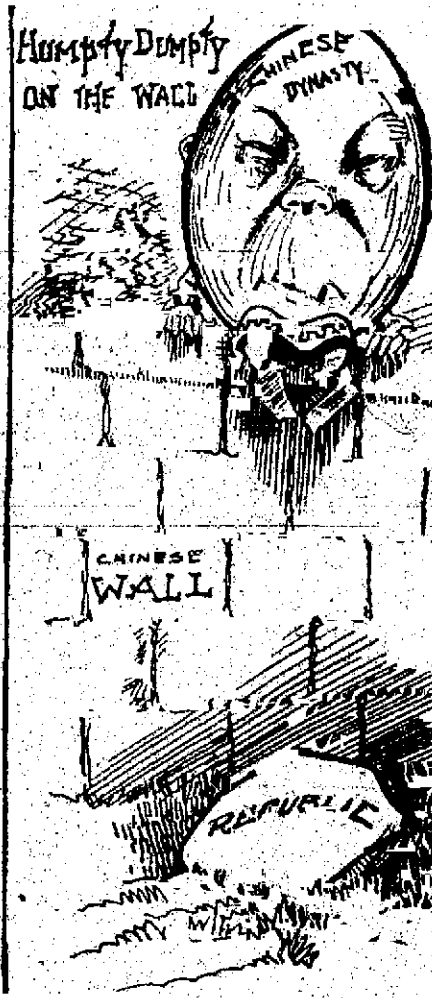

Mr. Daniels appointed J. D. Preston, superintendent of the United States senate press gallery and Charles Albert, chairman of the standing committee of the senate and house press gallery as assistants.

A. F. OF L. WILL TAKE FIRST STEP TODAY TO END STRIKE

LAWRENCE, Mass., Feb. 5.—The American Federation of Labor will take its first step tomorrow to end the Lawrence strike, which is being conducted by a rival organization, the Industrial Workers of the World.

Officials of the Central Labor union, which is affiliated with the federation, announced tonight that seven meetings would be held tomorrow in order to assemble the grievances of the different classes of workmen into one statement. This statement will be presented to the mill agents.

HUMPTY-DUMPTY TOOK A GREAT FALL

C. T. FERTIG HEADS SPECIAL COMMITTEE

Republicans Hope to Land
State Convention to Be
Held Early in June

Charles T. Fertig was yesterday elected chairman of the Republican committee recently appointed by the chamber of commerce to make efforts to secure the state Republican convention for this city in June.

A special committee was appointed from those who attended yesterday's meeting to attend the meeting of the state central committee in Denver next Monday morning and present the claims of Colorado Springs for the 1912 convention. It consists of Charles T. Fertig, chairman; E. W. Giddings, H. H. Grafton, Arthur Cornforth, Judge W. S. Morris, Judge J. W. Shearer, Postmaster A. J. Strachan, C. A. Pollock, J. F. Boynton, Charles Chapman, F. A. Perkins, W. S. Reynolds, Harry Hutchinson, B. A. Banta, D. N. Heiler, J. P. Madden, Dr. W. A. Campbell, Dr. H. W. Hoagland, J. A. Orr, Dr. William F. Slocum, Mark Raftery, R. L. Chambers and F. M. McMahon. There are many others who will be able to attend and their names will be added to the list as soon as they announce their intention of going.

To Denver Sunday.
The members of this committee will go to Denver next Sunday and start active work to secure the spring gathering. The meeting of the state central committee will be held during the morning and at night a Lincoln day banquet will be held at the Albany hotel. The Colorado Springs delegation, together with delegations from all parts of the state, will attend and it is the desire of the committee that all Republicans in this city who can possibly get away attend the banquet.

R. L. Chambers and Arthur Cornforth were appointed as a committee to draw up a brief showing the reasons for sending the convention to Colorado Springs. All of the members of the committee will send out letters to the members of the state central committee, asking them to consider favorably the claims of Colorado Springs.

The meeting was one of the most enthusiastic ever held in this city and the committee feels confident of securing the convention. Active work has been started and every Republican in Colorado Springs can help by going to Denver and boosting this city as the only place for the meeting. Mark Raftery presided at the meeting yesterday.

Germany's Imprisonment of English Lawyer Is Arousing Whole Country

LONDON, Feb. 5.—Indignation in this country is rapidly growing at the sentence imposed upon Bertrand Stewart, a prominent London lawyer, who recently at Leipzig was found guilty of espionage and ordered confined in a fortress for three and a half years.

Stewart's trial lasted five days and when the verdict was announced he declared vehemently that he was innocent and wanted everybody in England to know it.

It is suggested that a movement be organized for the boycott of British tourists of all German holiday resorts, as a protest against what is characterized almost universally by the newspapers as a "judicial scandal" and a gross miscarriage of justice.

Feeling against Germans, which of late has been subsiding, has become more embittered than ever.

ARTHUR J. BURNHAM DIES MAINTAINING INNOCENCE TO LAST

Arthur J. Burnham, whose wife and two children, together with the three members of the Wayne family, were murdered here last September, died at St. Francis hospital yesterday morning at 7 o'clock, a victim of asthma and tuberculosis. His death was hastened by Bright's disease.

Although the finger of suspicion pointed to Burnham for many days after the terrible crime was discovered September 20, and he was under arrest for a time, he maintained to the last that he was innocent and unable to offer any suggestion that might lead to a solution of the mystery. If there are any who believed that Burnham would leave a statement touching upon the case they will be disappointed, for no message, it is said, was left.

Burnham was taken to the hospital about 10 days ago, and at that time practically no hope was entertained for his recovery. He realized that his days were numbered, but in the presence of friends who called to see him, he did not complain. The last 10 hours of his life were spent alone in his room. A nurse left him at 9 o'clock Sunday night and no one saw him again until yesterday morning at 7 o'clock when one of the day nurses started on her rounds. Burnham was dying when she opened his door and expired before she could reach him.

Discussed Case Thursday.
The last time he discussed the Dale street murder case was Thursday afternoon. Then, as he had done from the first, he declared he was innocent.

"There are times when I have little hope," he said, "but I would like to live if for no other reason than to see the mystery surrounding the death of my wife and children and the Wayne family cleared up. I realize that many people believe I know something that would throw light on the case, but I help me God, I do not. That is all I could say if I knew I was going to die within an hour. I am sure if I could tell anything about it I would at this time. Whether anyone in that neighborhood could tell anything I am sure I do not know. It would seem impossible for such a thing to happen without someone in the neighborhood hearing something that would alarm them. It is a complete mystery to me, as it is to others."

"God knows I have suffered," Burnham continued, "and not the least of my suffering has been the consciousness that there are people who still believe I am guilty of concealing the crime."

E. H. Hartwick, a lumber dealer of Detroit and a cousin of Burnham, (Continued on Page Three)

Isabella Fight Is Looked for Today

The close of the first day of the annual meeting of the Isabella Mines company, which commenced in Cheyenne, Wyo., yesterday afternoon, showed no business transacted, the entire time being taken up in fighting over credentials. The most of the stock, which is distributed among 1,600 stockholders, is represented by proxy and owing to the laws of Wyoming governing the counting of proxies the work will probably not be finished until this afternoon.

Press reports from Cheyenne last night state that it is impossible to tell whether the Burns or the Quintin faction has the largest representation. If the Burns faction has control it is likely that James F. Burns will be elected president to succeed E. E. Quintin. The report also says that a big fight is expected over many other matters besides the Burns-Quintin control. It is thought that many matters, which have been hanging fire for some time, will be decided at this meeting.

PORTLAND COMPANY MEETS IN CHEYENNE

Old Board Re-elected—Report
Shows Mine to Be in
Fine Condition

The Portland Gold Mining company, which shipped 50,238,435 net tons of ore, having a gross value of \$1,140,054.05, during the year of 1911, realizing a net profit of \$380,579.35, according to the annual report submitted at the annual meeting of the stockholders in Cheyenne, Wyo., yesterday.

A total of \$240,000 was paid in dividends during the year, and January 1 a balance of \$2,023.55 remained in the treasury.

The total dividends paid to January 1 are \$3,917,080. The net tons of ore mined to date are 1,151,063,343, making the total earnings \$32,289,315.21.

The former board of directors, consisting of Frank G. Peck, Dr. D. H. Rice, Thomas R. Burns, Irving Howbert and Ira Harris, was re-elected. A meeting of the board will be held in this city this week for the purpose of electing officers, and there is little doubt that the present officers will be re-elected. They are Frank G. Peck, president; Dr. D. H. Rice, vice president; and Thomas R. Burns, secretary and treasurer. It is understood there will be no changes in the officials at the mine and mill.

President Peck's report shows that the mine has been under more economical management and the cost of treating ore has been reduced during the year of 1911. The report in full follows:

Peck's Report.
Colorado Springs, Colo., Feb. 5, 1912. To the Stockholders of The Portland Gold Mining Company:

During the past year several changes have been brought about in connection with your property, which will be of great benefit in the immediate future. The process of treatment at our Colorado Springs mill has been changed from chlorination to cyanide, and improvements have almost completed, and a material reduction in the cost of treating our ore will be effected thereby.

At our Victor mill, an increase in capacity, due to the adjustments (Continued on Page Seven)

TWO CHINESE OUTBREAKS IN CALIFORNIA CITIES

SAN DIEGO, Cal., Feb. 5.—After a running duel at 2 o'clock this morning, Yon Fie, a Chinese believed to be a hatchet man, was arrested by Policeman John Schultz. The Chinese fired a shot before he was overpowered. Neither of the two was hurt.

Papers found on the prisoner lead the police to believe he is a highlander sent here from Los Angeles to levy tribute upon local Chinese merchants. Chinamen of the Hip Sing Tong made a attack in force late last night from the tops of adjoining buildings on the house and store of May Wah, head of the Hop Sing men. May Wah was not in the place, but his wife was. Half a dozen shots were fired but no one was hurt.

Lae Wei, a Hip Sing man, was arrested today and the police found on his person a list of Hop Sing men with prices on their heads. There were 30 names on the list, according to interpreters.

SAN JOSE, Cal., Feb. 5.—While Hip Sing and two companions who act as court interpreters were returning to Chinatown this afternoon they were attacked near the Hotel Vendome by Lim To and two others. They overpowered the three and took them to their lives to the presence of several women, among whom they took shelter. A street sweeper assisted in driving away the gunman.

GEN. OROZCO IS MADE GOVERNOR GIVEN CONTROL IN STATE OF CHIHUAHUA

Rumored That De la Barra
May Again Be Named Acting
President in Mexico

EL PASO, Tex., Feb. 5.—Gen. Pascual Orozco was installed as governor of the state of Chihuahua at 8 o'clock this morning, according to passengers just arrived on the first train since Wednesday. The train included Juarez tonight. There was no demonstration over the inauguration or the arrival of the former notorious guerrilla from Ciudad Juarez. The train brought 60 American refugees from the city of Chihuahua and intervening points.

There is no telegraph communication between the city of Chihuahua and Mexico City, the wires being cut.

Abraham Gonzalez, late governor of Chihuahua and present minister of the interior in the Madero cabinet, was on the last train that has entered Chihuahua from Mexico City, but did not enter the city. He was warned by telegraph that he would be assassinated if he came to Chihuahua, and left the train at Santa Rosalia. It is presumed he will attempt to return to Mexico City.

The train passengers from Chihuahua say the talk is that city is that Francisco De la Barra is to be recalled from his present mission to Italy and again made acting president of the republic with Orozco as vice president, and that the vacancy in the governorship produced by the advancement of Orozco will be filled by Senator Mejia. This passenger train left Chihuahua at noon today and reports the city quiet at that time.

Juarez Poorly Policed.

Juarez is left practically unprotected. Along the entire line of the Mexico Northwestern railway recently opened between Juarez and the city of Chihuahua are armed men, professed followers of Vasquez Gomez. These men are in control of an important line of railway running from the state capital to the border port. All loyal troops are reported to be mobilized at Chihuahua. Juarez is left open to the marauding troops of Chihuahua for the time being. The situation as far as El Paso is concerned, but it leaves Juarez only scantily policed.

Another feature of the situation that is somewhat peculiar is that the Vasquez mayor placed in position through the military of the Juarez garrison is left in charge of affairs of the city in its alleged restoration to the Madero government. There is some talk tonight, among the leading residents in Juarez, of arming and organizing for the protection of themselves and their property. According to these people, there are now less than 100 armed troops in the city.

U. S. Campaign Plans.

WASHINGTON, Feb. 5.—The war department's action in calling on the post commanders throughout the country to have their men in a state of readiness for immediate service was a result of recommendations by the state department when the situation was more critical.

The plans for a general staff for a campaign in Mexico were prepared long ago and have been in a state of constant revision. Generally they contemplate the employment of about 100,000 men, 40,000 of whom would be regulars gathered from all of the military departments. Supplementing these would be 60,000 militiamen. While the regular troops would be ready for service in three days, at the outside, it is estimated that 30 days would be required to assemble the militia.

The official notification of the action, quelling the meeting at Juarez by General Orozco, contains the added information that Colonel Estrada was again relieved of the command of the troops and placed under arrest. No explanation was offered as to why the officer, who was supposed to be loyal to Madero, had fallen under Orozco's displeasure.

Casas Grandes, a short distance south of Juarez, was reported to be held by about 400 adherents to the cause of Dr. Emilio Vasquez Gomez.

SENATE PASSES BILL IN INTEREST OF EMPLOYES

WASHINGTON, Feb. 5.—A house bill, extending to the employees of the bureau of mines the right to receive compensation from the government for injuries received while on duty, was passed today by the senate. The bill now goes to the president.

GIDDINGS DENIES THAT PROTESTING DELEGATION WILL GO TO WASHINGTON

The story published yesterday afternoon that President E. W. Giddings would call a special meeting of the board of directors of the Chamber of Commerce this morning for the purpose of taking up the matter of sending a special delegation from this city to Washington to protest against the proposed tariff on lead, zinc, tungsten, boric acid and wolfram, was denied by Mr. Giddings last night.

"When asked this morning if I would call a special meeting of the directors to take up this situation, as presented by Senator Simon Guggenheim, I answered 'Most emphatically no,'" said President Giddings.

REPUBLICANS IN FIGHTING MOOD EXPECT TO GET CONTROL OF THE HOUSE

Caucus and Name Body to Conduct
Coming Congressional
Campaign

WASHINGTON, Feb. 5.—Republicans in congress caucused tonight, and named the committee that will conduct the coming congressional campaign. Progressives and regular Republicans fraternized in a manner not seen since the party revolt that sheared Speaker Cannon of his power in the preceding congress. As a result the leaders were enthusiastic over the outlook for victory in the coming struggle to wrest from the Democrats the control of the house.

Senator Gallagher of New Hampshire, a "regular" presidential contender, was elected president. Frank P. Woods of Iowa, a leading Progressive, introduced a resolution extolling the work of Representative William B. McKinley of Illinois, as chairman of the committee and urging that he be re-elected to that position.

"Good! Good!" was heard from every corner of the house chamber. This was followed by general applause. Mr. McKinley has been recognized as one of the staunchest of the "old guard," and is a close personal friend and admirer of ex-Speaker Cannon. A resolution was adopted.

Executive Subcommittee Soon.

A meeting of the committee will be called within a few days. Mr. McKinley announced this afternoon, at which time an executive subcommittee will be named.

Following is the personnel of the new congressional committee: James C. Needham, California; Simon Guggenheim, Colorado; E. Hill, Connecticut; Burton L. French, Idaho; William B. McKinley, Illinois; Edgar D. Crumpacker, Indiana; Frank P. Woods, Iowa; Victor M. Kennedy, Kansas; Caleb B. Smith, Kentucky; Frank E. Guernsey, Maine; John W. Weeks, Massachusetts; Thomas Farran, Maryland; E. L. Hamilton, Michigan; Richard Barthold, Missouri; C. H. Pray, Montana; M. P. Kinkaid, Nebraska; Edwin E. Roberts, Nevada; George W. Fairchild, New York; John J. Gardner, New Jersey; Jacob H. Gallinger, New Hampshire; H. T. Neilson, North Dakota; N. A. Taylor, Ohio; D. C. McGowan, Oklahoma; A. W. LaFayette, Oregon; J. Hampton Moore, Pennsylvania; George H. Utter, Rhode Island; Charles H. Burke, South Dakota; Joseph Howell, Utah; D. J. Foster, Vermont; C. B. Slomp, Virginia; William La Follette, Washington; James H. Hughes, West Virginia; F. W. Mondell, Wyoming; J. H. Davidson, Wisconsin; James Wickham, Alaska; Ralph Cameron, Arizona; George C. Curry, New Mexico; Johan Kalanick, Hawaii.

Members of the committee from Delaware, Minnesota and Tennessee were not announced.

ATTORNEY GENERAL WANTS TO BE MISSOURI GOVERNOR

JEFFERSON CITY, Mo., Feb. 5.—Attorney General Major today filed his declaration with the secretary of the state for the Democratic nomination for governor. Mr. Major lives in Pike county, which is also the home of David Bell, who has declared his candidacy although has not filed his declaration.

GRAND JURY REPORT IS EXPECTED TODAY

Believed at Least 35 Indictments Will Result From
Dynamite Probe

INDIANAPOLIS, Feb. 5.—The federal grand jury's investigation into the dynamite conspiracy, carried on for six weeks through the examination of 300 witnesses, is expected to result tomorrow in the return of at least 35 indictments.

When the jury meets at 2 p. m., Federal Judge Anderson will be in readiness to receive its report. How long the jury will require to vote on the indictments already drawn up is not known, but it was learned today that whatever action the jury takes already has been decided upon, and the final voting is merely formal procedure.

United States District Attorney Miller said arrests, if any are to be made, will not take place in less than three or four days after the return of the indictments. Arrangements will be made to cause arrests on the same day and Judge Anderson will file a data for the arrangements for the defendants. It is expected the grand jury report will develop important disclosures concerning the long series of explosions which culminated in the blowing up of the Los Angeles Times building in which the McNamara and Orin McManis were known parties. McManis, who became a witness for the government, is said, through his confessions to the jury, to have revealed the names of many men not heretofore mentioned, as having assisted him and as having worked under the McNamara in perpetrating in the last five or six years the 100 or more explosions which were directed against iron work contractors who maintained open shops.

ARTHUR J. BURNHAM

(Continued From Page One)

reached here Thursday in response to a telegram. He, too, declared that Burnham could not have had any connection with the murder.

In addition to a life insurance policy in the Modern Woodmen of America for \$3,000, which goes to two cousins in Michigan, Burnham left title to a half interest in a house and lot adjoining the home of his mother-in-law, Mrs. E. A. Hill, 932 South Sierra Madre street.

Burnham was 42 years old and came here several years ago for his health. His mother died when he was a child and he had no recollection of his father. He worked in various parts of the city at different times, and for a few months before the Wayne-Burnham murders was employed as a potato peeler at the Modern Woodmen sanatorium north of Colorado Springs. The funeral will be held at 3 o'clock tomorrow afternoon from the undertaking rooms of Kierley & Law, under the auspices of the Modern Woodmen. The Rev. Henry L. Kober, pastor of the United Brethren church, who officiated at the funeral of Mrs. Burnham and her children, will conduct the service.

THROWS MORE LIGHT ON PACKERS TEST COST PLAN

CHICAGO, Feb. 5.—Additional information regarding the method used in figuring the test cost of beef, which the government contends was an important part of the system by which the packers made prices in a combination in restraint of trade, was given the jury in the packers' trial today.

William T. Sheehy, who figured the test cost of beef for Armour and company in the period covered by the indictment, explained the system. He said a killing charge of \$2.75 a head was added to the live cost of the cattle and allowance made for the by-products to ascertain the test cost of the dressed beef. The prices for the by-products credits were enumerated as follows:

Hides, 3 1/2 to 5 cents a pound, according to quality; fats, 3 cents a pound; tongues, 23 cents each.

He admitted there was a period in 1908 when no allowance was given for hides for Armour and company in figuring the test cost of beef, but he was unable to remember the exact length of time this continued.

When pressed by District Attorney Wilkerson to give his best recollection as to time, he said the hide allowance was discontinued from six months to a year in 1908.

Both sides stipulated that the record show that Armour and company discontinued the allowance for hides in figuring the test cost for beef in 1908. Earlier in the day the government introduced into evidence 45 code telegrams to show the method of the National Packing company in directing its sales in the New England territory from the corporation's main office in Chicago.

DR. MURPHY SAYS

An article of merchandise without a trade mark, is like a mule without pride of ancestry or hope of posterity.

And an improperly fitted pair of glasses is like a lost diamond, a never ending source of worry. Moral: Get the kind that fit—glasses—I mean.

Mine are guaranteed. 325 Bu. no Bk.

All You Need Is a Cascaret Tonight

No Sick Headache, Bilious Stomach, Coated Tongue or Constipated Bowels by Morning.

Turn the cascals out—the headache, the biliousness, the indigestion, the sick, sour stomach and foul gas—turn them out tonight and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse and regulate your stomach; remove the acid, undigested and fermenting food and that misery-making gas; take the excess bile from your liver and carry out of the system all the decomposed waste matter and poison in the intestines and bowels. Then you will feel great.

A Cascaret tonight will surely straighten you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head and cheerfulness for months. Children love to take Cascarets because they taste good—never gripe or sicken.

OFFICIAL STENOGRAPHER

LORIMER HEARING LOSES JOB BECAUSE OF ACTION

WASHINGTON, Feb. 5.—Discharged as official stenographer of the Lorimer committee and awaiting possible punishment for alleged contempt, Milton W. Blumenberg today took the witness stand before the committee to tell why he branded as "manufactured" the stenographic report by J. E. Sheridan of alleged phonograph admissions by Charles McGowan.

Statements made Saturday night before the committee that the report was "faked" were repeated under the tense situation in the investigation unexpectedly has resulted in sharp passages between counsel and members of the committee.

Blumenberg's discharge came after his refusal to explain his conduct Saturday in ordering his stenographers to quit reporting the proceedings. Resolutions were adopted looking to his punishment for alleged contempt and the committee attorneys began a search for precedents to bring Blumenberg before the bar of the senate.

The testimony of J. E. Sheridan, the 18-year-old stenographer of the Burns detective agency, then was completed. The witness declared his notes were genuine. He reiterated that he had not attempted to report all that came over the phonographic apparatus from the room in which detectives were talking to McGowan, but that he took only what he deemed material. A willingness to submit to any test of speed was expressed. His now famous notebook was turned over to the committee.

Reads Notes Over Shoulder.

Blumenberg told how he "examined" Sheridan's testimony as to his "qualifications" and how he watched over his shoulder as he read his notes on the witness stand.

Then followed a storm of questions from members of the committee as to Blumenberg's talks with Edward Hines.

McGowan's alleged admissions involve C. F. Wiche, a brother-in-law of Edward Hines. Blumenberg said he could not remember whether Hines was in a group near the door after the Saturday session when he pronounced the notes as "absolutely manufactured."

The witness was asked what he said to Hines at the evening session just before he made his statement before the committee.

"I have not the remotest idea," was the response.

"Why did you sit down beside him?" pursued Senator Lee.

"I probably wanted to call his attention to the fabrication."

"Why did you tell members of the committee; you were in its employ?"

"I did not see any."

Displeased by Answer.

"Oh, you know three members were as near to you as Hines. That kind of an answer won't do."

"It must do. I can't give any good reason."

The committee demanded of Blumenberg the technical reasons for his opinion as to the notes. He said his explanation of years led him to that judgment.

In the first place, he said, long hand had been interspersed in the notes. He counted five places where the word "we" was written in long hand. "No one can take down conversation of three men and put it in long hand," he explained.

In conversation, he said, a man would start to say a thing and then change his expression. No such corrections were to be found in the notes. He testified, he declared it impossible for a stenographer to pick out just the material parts of a conversation, because while he was determining whether it was material, the words would be gone.

The committee has summoned several stenographers to testify and is considering tests to determine the issue. Blumenberg's examination will be continued tomorrow.

BRIEF REVIEW OF THE WAYNE-BURNHAM CASE

The sextuple murder, of which Burnham was first suspected, was committed between the hours of 9 and 12 o'clock the night of Sunday, September 17, 1911. Mrs. Alice May Burnham and her two children were murdered with an ax as they slept in their cottage at 321 West Dale street. Henry F. Wayne, his wife and 2-year-old baby, who lived in a small house in the rear of the Burnham lot, were also killed in bed.

It was not until noon of the following Wednesday, September 20, that the crime was discovered. Mrs. Jane Ruth, a sister of Mrs. Burnham, and Miss Anna Merritt, went to the Burnham home and found the doors closed and the window shades drawn. They secured a pass key and found the bodies. Sheriff's office men and detectives brought Burnham from the sanatorium after the six bodies had been removed to the morgue. He was taken into the houses and later to the county jail. Tony Donatelli, an Italian, who had known Mrs. Burnham before she was married, was also arrested, but both he and Burnham were soon released.

Rewards were offered and Pinkertons and a finger print expert were employed to assist the local authorities in the case. The ax with which the crime had been committed was found September 27 under the steps of a house on North Spruce street, close to Burnham's home. The coroner's inquest brought out no new features, and the jury returned a verdict that the murder had been committed by a person or persons unknown. Detectives worked on the case for weeks, but without results.

Sheriff Birdsell yesterday expressed the opinion that Burnham had no connection with the crime. Chief of Police Burns said that either Burnham or a degenerate committed the murder.

ULSTER UNIONISTS COUNCIL URGES PEACE FEBRUARY 8

BELFAST, Feb. 5.—The Ulster Unionists council has issued a manifesto urging all Unionists to abstain from interference with the meeting at which Winston Spencer Churchill, first lord of the admiralty, is scheduled to speak on February 8 on the home rule question. All loyal Unionists are required to do everything in their power to prevent any act that might reflect upon the Unionist cause.

The Grand Orange lodge adopted a resolution today not to interfere in any way with Mr. Churchill.

ARIZONA GOVERNOR WILL TAKE OATH FEBRUARY 12

GLOBE, Ariz., Feb. 2.—Governor-elect George W. P. Hunt announced today that he would take the oath of office as Arizona's first governor, on February 12, at noon.

Mr. Hunt said he had received information from Attorney General Bulard at Phoenix that President Taft would sign the proclamation admitting Arizona to statehood, next Monday, and that the signing would be announced in Phoenix shortly.

Mr. Hunt will leave Globe for Phoenix Saturday morning.

SPANISH RULERS WITNESS BATTLESHIP LAUNCHING

BARCELONA, Spain, Feb. 5.—King Alfonso and Queen Victoria were present today at the launching of the battleship Espana, which was made the occasion of elaborate ceremonies.

The Espana is a four-screw steel vessel, 435 feet in length. Her displacement is 15,450 tons and her estimated speed 18.5 knots. She will carry eight 12-inch guns, 20 4-inch guns and a number of quick firers and machine guns.

HEARST GOES NEW PAPER

ATLANTA, Ga., Feb. 5.—The Atlanta Georgian announced this afternoon that the paper has been purchased by William R. Hearst from Fred L. Seely, who established the paper six years ago.

Get Rid of Piles at Home

Try This Home Treatment—Absolutely Free.

No matter how long you've been suffering or how bad you think your case is, send at once for a free trial of the wonderful Pyramid Pile Remedy. Thousands afflicted as badly or worse than you trace their quick recovery to the "May they began using this marvelous successful remedy."

Pyramid Pile Remedy gives instant, blessed relief. Pain disappears, inflammation and swelling subside, and you are able to work again as comfortably as though you had never been afflicted at all. It may save the expense and danger of a surgical operation.

Just send in the coupon below with your name and address on a slip of paper, to the Pyramid Drug Co., 420 Pyramid Bldg., Marshall, Mich., and a sample will be sent you FREE. It will show you conclusively what Pyramid Pile Remedy will do. Then you can get the regular package for 50 cents at any drug store. Don't suffer another needless minute. Write now.

Free Pile Remedy

This coupon, when mailed with your name and address, will entitle you to a FREE TRIAL of the wonderful Pyramid Pile Remedy. Send by mail, prepaid, and in a plain wrapper.

Send This Coupon Now for Quick Relief from Piles

DEMOCRATS FAIL TO GET HOUSE OF RECORD AGAINST PRESIDENTIAL 3RD TERMS

WASHINGTON, Feb. 5.—The house today avoided going on record on presidential third terms. Just at the moment when the Stayden resolution, aimed principally at Col. Theodore Roosevelt, seemed about to pass, a shrewd parliamentary turn displaced the measure from further consideration. It may be revived later in the session. But its position of vantage on the house calendar was lost.

Mr. Stayden, a Texas Democrat, introduced the resolution a week ago. It sought to express the opinion of the house that the example of Washington in retiring after a second term had become a time-honored custom of the country, a violation of which would be fraught with peril to free institutions. The resolution was called up today with but little warning, and there was a quick matching of wits. Suspension of the rules was required to pass the measure, and to suspend the rules a "second" and "third" consideration was ordered. Mr. Sims of Tennessee objected to the "second" and "third" consideration, and by a vote of 191 to 159 the measure was rejected. The Republicans, in hurried conference, had determined not to vote on the resolutions, thus putting the Democrats in the position of passing the measure by a party vote, and of being in fear of Roosevelt as the Republican nominee.

Ex-Speaker Cannon led the way and was followed by Mr. McCall of Massachusetts, who had planned to speak against the third term idea. Mr. Blingham of Pennsylvania, "father of the house," and Mr. Higgins of Connecticut.

With the second defeated, Mr. Stayden was forced, amid a burst of applause, to withdraw his motion for suspension of the rules. The resolution was returned to the committee on elections.

DEATHS DUE TO ACCIDENT, NOT MURDER, SAY OFFICERS

NOWATA, Okla., Feb. 5.—Harvey Hurst, his wife, and Elsie Adams, 16 years old, whose bodies were found in the ruins of the Hurst home at Delaware, a small town near here, Saturday night, were not murdered, according to Nowata officials, but were the victims of accidental suffocation.

A small wound in Mrs. Hurst's head indicated murder, and that the house was fired in an attempt to cover a crime. This afternoon officials who viewed the corpses and the premises, concluded that fumes from an overturned gas stove had overcome the family, and that escaping gas, subsequently ignited by a lamp, had partially destroyed the dwelling.

COVINGTON AND PERRY SIGN

DETROIT, Mich., Feb. 5.—The Detroit American today received the signed contracts of pitcher "Tex" Covington and outfielder Henry Perry. Covington is the eleventh pitcher to sign.

One of the results of the revivals in the Boer prison camps during the South African war was the foundation of the Boer Missionary Institute at Worcester, South Africa.

TALKS ON TEETH BY DR. McDONALD

BEST PLATES, \$10.00

This week we are making the best vulcanite plates, full upper or lower, for \$10.00. The teeth are the best porcelain, made in true to nature shades and molds. They are light, thin and comfortable, guaranteed to fit and outlast any rubber plate made.

For this week we will make these plates, for which other dentists charge as high as \$25.00, for \$10.00. You can pay more, but you cannot buy a plate of better material or workmanship. Other plates as low as \$5.00. Special prices on crown and bridge work. Come in today for a free examination and estimate.

STARVATION DOCTOR IS UNABLE TO SECURE BOND

SEATTLE, Wash., Feb. 5.—Mrs. Linda Burfield Hazzard, the "starvation doctor" who was convicted of manslaughter for having starved to death Miss Claire Williamson, a wealthy English woman, was unable to furnish the \$10,000 bail required pending her appeal to the supreme court today and remained in custody of a matron appointed by the sheriff of Kitsap county. The sheriff says that if the bond is not filed today, he will bring Mrs. Hazzard to the King county jail in Seattle, as Kitsap county has no jail.

SECOND REFEREE FAVORS DIVORCE FOR SINCLAIR

NEW YORK, Feb. 5.—Marshall S. Maraden, the second referee appointed to take the testimony in the suit for divorce of Epton Sinclair, filed his report in the supreme court today, favoring the decree. Decision on confirming the report was reserved. In his application for divorce Sinclair named as correspondent, Harry Kemp, the "tramp poet." The first referee recommended that a divorce be granted, but the court ruled Sinclair had been allowed to testify of certain matters contrary to law.

LOVELAND HOTEL BURNS

LOVELAND, Colo., Feb. 5.—The Loveland house, a hotel erected here in 1911, one of the landmarks of the city, was destroyed by fire early today. The blaze was caused by an overheated stove pipe. The loss is estimated at \$30,000.

SPKINGS TO HAVE CANNING FACTORY

An enterprise involving the expenditure of \$25,000 is assured for Colorado Springs in a modern canning factory to be built here in the next few months. F. B. Stokes, proprietor of the Stokes restaurant, has purchased a canning plant in Oklahoma City, and left for that place last night to ship the machinery to Colorado Springs. It will be used mainly for the purpose of canning chile and food products raised in this state. A building on South Twelfth street along the tracks of the Denver & Rio Grande has been secured for the factory, which will be opened not later than June 1.

A company has been organized, of which F. B. Stokes is president and J. W. Stokes of Oklahoma City vice president. Other Colorado Springs men whose names are not made public are interested. The products will be known as the "Pikes Peak Brand," the design and copyright for which has already been secured.

The factory, equipment, which is being moved to this city, is modern, and its original cost was \$35,000. It will be up to date and capable of turning out several thousand cans per day.

COLORADO CITY CASH BOX NEARLY EMPTY?

The city council of Colorado City last night spent two hours in a discussion of ways and means to meet the salary roll for this month, after the city treasurer had reported that there is only \$400 on hand to meet the February bills. The city has never been so near "broke" in its history, and it is said a reduction of expenses is imperative. It was found by a process of elimination that there is not an official or employee of the city whose services can be dispensed with at this time, including Street Commissioner Geiger who cannot be laid off as he holds an elective office. As yet there has been no solution of the difficulty.

The council decided to allow the present ordinance, licensing the electricians of the city, to stand and not to open the field to outsiders. It was proposed that a man pay a proportionate sum, when engaged in a licensed business, according to the city that he has been in the city, that is, double the license for first six months of his residence.

NO RECORD OF TRACT ON SLOPES OF PEAK

According to investigations made at the state land office, the state does not have any interest in 138 acres of the land on the slopes of Pikes Peak, sought by Colorado Springs. It was announced a few days ago, following an investigation by Attorney H. C. Hall, that the land was not shown on the government maps.

The land originally belonged to the state, but was traded to the government in 1885 for other land. The government was to use the land for military reserve purposes. But the federal authorities have overlooked the plot in their maps, and now it is assured that the state has no title.

Further investigations will be made at the request of Mayor Avery, and, if nothing further is found, it is likely that the mayor will file on the land for the city and take possession.

Do you know that more real danger lurks in a common cold than in any other of the minor ailments? The safe way is to take Chamberlain's Cough Remedy, a thoroughly reliable preparation, and rid yourself of the cold as quickly as possible. This remedy is for sale by all dealers.

MANITOU DEPARTMENT

The Bank of Manitou will close Saturday afternoons hereafter.

Mrs. W. R. Hitchins and family have gone to Galesburg, Ill., to visit Mrs. Hitchins' mother.

The funeral of Mack Ogilbee, the 14-year-old son of Dr. and Mrs. H. M. Ogilbee, was held from the residence yesterday afternoon. Interment in Manitou cemetery.

Mr. and Mrs. D. I. Sterling of New York are in Manitou, where they formerly lived for several years.

The funeral of Frank Compagnon was held yesterday from the Congregational church yesterday afternoon. Burial in Manitou cemetery.

Mr. and Mrs. A. L. Rathford, who have been visiting in Manitou for the last several weeks, left yesterday for their home in Louisville, Ky.

Church & Son, who have the contract for the building of the scenic railway to the summit of Red mountain, started to work with a force of men yesterday. A camp has been established at Springs canon.

RAILWAY OFFICIAL INJURED

FORT WAYNE, Ind., Feb. 5.—J. J. L. second vice-president of the Pennsylvania railroad, was slightly injured this morning and had a narrow escape from death when his private car was thrown off the track at the western limits of the city.

Mr. Turner was en route to Chicago and his private car was the rear coach of limited train No. 5. Mr. Turner received cuts on the head and arm. One of the porters was also slightly injured.

QUININE DOESN'T CURE BAD COLDS

How to Really Break a Severe Cold and End All Grippe Misery in Just a Few Hours.

You will distinctly feel your cold breaking and all the Grippe symptoms leaving after taking the very first dose.

It is a positive fact that Pape's Cold Compound, taken every two hours, until three consecutive doses are taken, will end the Grippe and break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply.

Ministerial Association Will Meet Every Monday

Changes in the time of meeting and the order of business were made at the regular meeting of the El Paso County Ministerial association held at the Y. M. C. A. yesterday afternoon at 4 o'clock. Hereafter the association will meet every Monday morning at 11 o'clock instead of every other Monday afternoon at 4 o'clock. The length of the meeting has been limited to one hour and the address to 20 minutes.

C. C. Hemmings, who was to have delivered an address yesterday, was called to California, and the Rev. Samuel Garvin filled his place, speaking on the Men and Religion movement.

CHINA JIM GOING TO OLD HOME IN CHINA

China Jim, a merchant in this city for the last 25 years, will leave for a visit in China the latter part of the week. He will be gone for several months, and will take his wife and three children with him. He will visit in San Francisco for two weeks before sailing for the far east. His business here will be conducted during his absence by M. W. Bing.

Good Roads Enthusiasts Will Hold Meeting Here Tomorrow

Good roads enthusiasts from the various counties of central Colorado will gather in Colorado Springs tomorrow to formulate plans for the development of the central road as one of Colorado's great transcontinental highways.

According to advices which have been received by chairman Leonard E. Curtis, practically every city between the Kansas and Utah lines will be represented by an active delegation.

The central road enters the state line near Burlington, follows the general line of the Rock Island railroad by way of Lamon to Colorado Springs, thence west through Colorado City and Manitou up the Pass and across South Park to Buena Vista. Between Buena Vista and Grand Junction there are three routes under consideration—by way of Independence Pass, by way of Leadville, and along the general line of the Denver & Rio Grande railroad, and through Monarch Pass and Gunnison and Delta counties.

The people residing along these three routes are taking a more active interest in the question here tomorrow than those anywhere else along the entire route, and from word received here, there will be a fight before the official route between Buena Vista and Grand Junction is finally decided. Those along these three small

Never Take An Internal Bath?

It Is The New and Scientific Nature Cure for Many Ills

A most interesting method of Internal Bathing is now being shown and explained by Max Kahn, state agent. It is called the J. B. L. Cascade, and is different from anything else ever used for the purpose.

You have undoubtedly noticed that Constipation and Bloating, besides bringing on much more serious illness, make us feel nervous, yellow, blue, unfit to think or work—in fact, about as poor as efficient.

Large force nature, once taken, must be persisted in until we are more or less slaves to them and the longer we take them the larger the dose must be.

WOMAN WHO RAISED BILL JUMPS BOND

Mrs. Olive Stewart, wife of a ranchman living near Roubidoux, did not appear when her case was called in the United States district court in Denver yesterday and forfeited a \$2500 bond. She was charged with having raised a \$10 bill to \$50 with intent to defraud.

Mrs. Stewart was arrested by the local police four or five months ago. It is alleged that she first mutilated a \$5 bill with a pair of scissors, taking the figure "5" and pasting it on a \$10 bill.

This paper was said to have presented to a clerk in the employ of the J. H. Bridger Grocery company, 24 North Tejon street, in payment for a supply of groceries. She is said to have obtained about \$45 in change, and was about to leave the store when the clerk took a second look at the paper money before putting it in the till. He followed her to the street and notified a patrolman. When arrested, Mrs. Stewart said she raised the bill on account of her sick husband and hungry children. She told other conflicting stories, one that she was a school teacher and another that she and her husband and children had just moved to this section from Kansas.

After being held here by the police the federal authorities took the case over and an indictment was brought against her, charging the mutilation of currency.

CONDITION OF VANATTA IS REPORTED IMPROVED

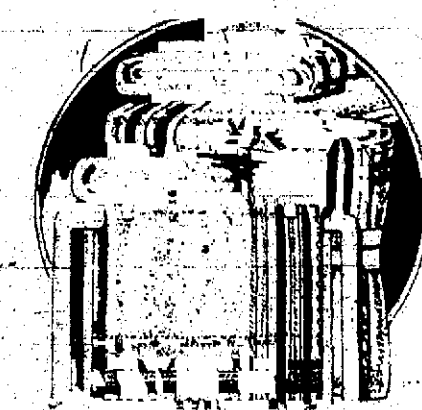

J. K. Vanatta, a prominent attorney, who has been ill at his home, 547 East Platte avenue, was better last night. Dr. W. N. Casely, who is attending him, said that his condition is not as serious as was first reported.

He suffered a slight hemorrhage of the brain Sunday. He had been ill a few days preceding, and his condition has been with but slight use of his vocal chords. While it is true that he was in a serious condition, I do not want it to be understood that he cannot recover.

would cost more than the prices quoted on these two lots. Don't miss this chance—probably the last opportunity of the season to pick up snags like these.

ACACIA HOTEL WILL MAKE IMPROVEMENTS

The first of many and extensive improvements to be made at the Acacia hotel was started yesterday when the work of remodeling the parlors and writing room was commenced.

The room which has been used as a drawing room has been remodeled to be used as a writing room, and the present reception room will be used for the drawing room. Both rooms will be repainted and repapered. Changes will also be made in the lobby. It will be repainted and large chandeliers will be installed.

The improvements are being made under the direction of Manager S. J. Bush, and are a direct result of the visit of Peter Quackenbush, one of the stockholders in the Acacia hotel company. Mr. and Mrs. Quackenbush left last night for New York city.

CHAMBER OF COMMERCE ADDS TO MEMBERSHIP

Fred K. Pratt, A. C. Denlow and Dr. W. A. Murphy have been elected to memberships in the Chamber of Commerce, and several more applications have been received by Secretary A. W. Henderson.

"I would hardly say that the memberships are a direct result of the membership campaign started several months ago," said Secretary Henderson last night. "It is only that more people are realizing the benefits of the Chamber of Commerce and they are anxious to get in and help boost Colorado Springs."

WEDS MISSOURI GIRL

Charles Jay Templeton, son of Mr. and Mrs. W. G. Templeton of Neb. Hill, this city, and Miss Ruth Baker of Moberly, Mo., were married in Wichita Falls, Tex., January 31. Templeton is well known here as a violinist. He attended the local high school and afterward studied in Chicago. They will make their home in Wichita Falls.

city, no matter how many times it has played there. This year the story of the play is the same, the musical numbers are exactly the same as when first presented, and the general production along the same lines as when the charming musical comedy first attained New York with its novelty and humor. There is a reason for this. There was no use to change a line or a note of the music, for it was perfect, and just what the public had demanded for years. Other musical comedies lugged in new melodies and put in new "specialties" because there were spots in the book that needed strengthening, but not so with "Three Twins." Its dainty and pretty story, its unexpected flashes of wit, its numerous and ludicrous situations, and, above all, its melodies, which delighted everyone, could not be improved upon, and so the whole story and music is the same. But it is different with the scene and costuming of the show. That is all new this season, and on a scale of magnificence never before attempted by the manager of a musical comedy. It will delight the eye as the story and the music of the play will delight the ear. The company is composed of people who have made individual hits in the past years, with George Ebner, a droll comedian, assuming the leading role, supported by Gertrude Hutcheson, a dainty bit of femininity, playing the part of Kate in such a delightful, refreshing manner that critics in all the cities where she has played have raved over her, and Estelle Colbert, as the Yama Yama girl.

"THE PRINCE OF TONIGHT" COMING

Too often one expects nothing, but froth and folly, intermingled with musical numbers, when a musical comedy is announced. But not so with "The Prince of Tonight," which the well-known producer, Mort H. Singer, will offer at the Opera house, Saturday evening next, February 10. The froth is there and the folly isn't always absent, but there is something substantial about the story, the music and the characters that has elevated "The Prince of Tonight" above the plane of the ordinary musical comedy. It has been termed by many a musical fairy, with all the merit of high-class comic opera. Certainly it has proved to be the best vehicle Mr. Woodruff has ever had, not excepting his former great success, "Brown of Harvard." It is an alluring conceit, full of pretty

HENRY WOODRUFF,
in "The Prince of Tonight," as seen at the Opera House Next Saturday Evening, February 10.

songs and chorus numbers, rendered by attractive girls in fanciful costumes. Adams, Hough and Howard, the authors, who also are known for their "Miss Nobody From Starland," "The Flirting Princess" and a score of other successes, have been credited with the best efforts in the writing of "The Prince of Tonight." The story, consistent and of original trend, tells of a poor but resourceful college youth who has been badly snubbed by a young heiress whose flirtations he mistakes for real love. At the magic moment of the blooming of a century plant, he is transformed into a prince, for the one night, of the mythical land of Lunatania. He is enabled to win the girl who snubbed him after all manner of adventure, in the midst of fairyland scenes lavishly presented. Among the many song hits are "Her Eyes Are Blue for Yale," "It Is a Dear Old World After All," "The Best Thing a Woman Does Is Wait," "I Can't Be True So Far Away," "To-night Will Never Come Again," and "I Can't Help Falling in Love."

A HEALTHY, HAPPY OLD AGE

May be promoted by those who gently cleanse the system, now and then, when in need of a laxative remedy, by taking a desertspoonful of the ever refreshing, wholesome and truly beneficial Syrup of Figs and Flixir of Senna, which is the only family laxative generally approved by the most eminent physicians, because it acts in a natural, strengthening way and warms and tones up the internal organs without weakening them. It is equally beneficial for the very young and the middle aged, as it is always efficient and free from all harmful ingredients. To get its beneficial effects it is always necessary to buy the genuine, bearing the name of the California Fig Syrup Co. plainly printed on the label of every bottle.

NEW CARNIVAL FILM AT MAJESTIC TODAY

Everybody who attended the summer carnival will be interested in seeing again the interesting spectacles which contributed to its great success. They will have that opportunity at the Majestic today, for one day only. Manager Tammen having arranged to exhibit the film which has been shown all over the east under the name of "Cheyenne Days." The film is full of graphic scenes, including the wonderful flight of Parmelee over the Garden of the Gods, the dances of the Ute Indians in the Garden, the flights of Parmelee and Duran in the vicinity of Roswell, the huge crowds watching them, and the wild west exhibition. The faces of hundreds are recognizable and the pictures are intensely interesting.

SINGS HIGH OPERAS

MADAME LE BRUN TO APPEAR HERE HAS A LARGE REPERTOIRE

Studied Under Julia Gavarotti in Milan, Has Sung Many Times in Germany.

Madame Le Brun, who appears at the Opera house Wednesday night, is one of the world's greatest sopranos. She began her musical education at the age of seven. A child prodigy on the piano, she played at leading concerts. With this splendid ground work, she took up voice at 18, studying under Julia Gavarotti, in Milan. She also studied under Ugo Angeli, so her studies were all in the pure old Italian school.

Madame Le Brun came to America with the Royal Italian Opera company and played a season in New York. Here Mr. Henry Savage heard her and engaged her for a three years' contract as prima donna of his then English Grand Opera company, after which she returned to Europe. For the past three years she has had her own company, has made New York her headquarters, and has played all the big cities of America.

Over a year ago she went to Germany, where she sang at the Wagner festival performance at Worms, as Elsa, in "Lohengrin," and as Elizabeth, in "Tannhauser," at Innsbruck. She appeared in Karlsruhe as Leonora, in "Il Trovatore," and as Marguerite, in "Faust," at Nantes, France, also took part in a festival performance at Trieste.

The grand opera quartet appears at the Opera house, Wednesday night, at 8:30, in the Y. M. C. A. Star course.

Ash barrels are not allowed in the streets of Berlin. Ashes and garbage are collected in certain days and dumped into a tightly covered wagon without permitting any of the dust to escape.

Societies and Clubs

Post 22, G. A. R., will meet in regular session this evening, at 7:30.

The Ladies auxiliary of the Sons of Israel will hold an important meeting at the synagogue tomorrow afternoon at 3 o'clock. All members and guests wishing to join the auxiliary are urged to be present.

A social meeting of the Pikes Peak chapter of the American Woman's league will be held this evening at 8 o'clock with the president, Mrs. Charles A. Eldredge, 18 East Williamette avenue.

The Woman's Foreign Missionary society of the First M. E. church will meet at the parsonage, 505 North Nevada avenue, with Mrs. Merle N. Smith this afternoon at 3 o'clock. Mrs. W. W. Flora will lead the devotional exercises. Miss Louise Chamberlain will give a paper on "The Religions of China." Mrs. William E. Fryboffer, "China, Today," and Mrs. Northcott will render vocal solos. All members, especially the new ones, are urged to be present.

Yeomen—Notice that the office of the correspondent is now in room 2 of the old Postoffice building. Phone Main 191.

The Study club in social science of the Woman's club will meet this afternoon at 3 o'clock at the home of Mrs. Jay C. Merritt, 1209 North Teton street. Robert Kerr will review the "Privilege of Democracy in America," by Frederick C. Howe.

The Fraternal Bankers association, lodge No. 166, will hold a social session tonight. There will be a program of an interesting nature and refreshments will be served.

The L. C. E. A. meets tomorrow at 2 p. m. The meeting is called earlier than usual to permit members to attend the card party to be given by the Ladies' Alter society, in St. Mary's hall.

The Cheyenne Parents and Teachers association will meet at the school tomorrow afternoon at 2:30 o'clock. A program will be given consisting of a flag drill, song by Miss Nowles' class, patriotic selection by the Glee club, vocal solo by Miss Rachel Lee Mattox and reading by Miss Anderson. All members are requested to respond to roll call with a quotation from Lincoln.

"The Critique" has been chosen for presentation by the Dramatic club, the membership of which includes young women of Colorado college. Saturday, February 17, on the occasion of the annual club function. The parts were assigned on a basis of competitive trials and the cast will be as follows: Mr. Dangle, Miss Ellen Gailpin; Mrs. Dangle, Miss Claire Galligan; Mr. Puff, Miss Mabel Wilson; Mr. Sneer, Miss Kathryn Copeland; Tiburnia, Miss Rita Miller; Justine, Miss Claire Galligan; First Niece, Miss Mary Pablow; Second Niece, Son, Miss Joan Ormes; Beef Eater, Master of Hosts; Under Prompter, Constable; Mr. Allen Brown; Whiskerous, Miss Lillian Picken; Interpreter, Sir Christopher; Miss Corolla Schuyler; Sir Walter Raleigh, Miss Ida Haines; Theng, Miss Mary Sumner; Governor, Justice, Miss Mary Sumner; Leicester, Miss Mary Walsh; Indiana, Miss Carrie Porter.

Cooks May Come and Cooks May Go But

in those homes where Solitaire Coffee is served, no matter who presides in the kitchen, every day starts smoothly, cheerfully, vigorously. On one hand you hear "Nora may not be much of a cook, but her coffee is always above reproach." On the other "Mother's hand hasn't lost its cunning. Her coffee is as good as Mary's ever was."

Morcys

Solitaire Coffee

is a leveler of reputations. Any novice, with Solitaire Coffee and the instinct for cooking, can make as good a pot of coffee as the most experienced housewife. The trick isn't up the sleeve, it's in the coffee. The secret is the very little time and distance between the roasting and the coffee cup.

F. H. FAUS HERE TO SUCCEED BRASTED

F. H. Faus, formerly contracting agent for the Rock Island lines, with headquarters at Omaha, arrived in this city yesterday to take the position of commercial agent in the freight department of the Rock Island, recently made vacant through the promotion of A. R. Brasted to the position of division freight agent with headquarters at Wichita, Kan. Mr. Faus, who is an experienced railroad man, will assume his duties at once.

MOVABLE SCHOOLS FOR NORTH DAKOTA FARMERS

WASHINGTON, Feb. 5.—Bullietins on after-dinner speaking, how to write humorous stories, woman suffrage and how to judge a debate are among the publications which the North Dakota Agricultural college offers for the education of the farmers and others in the state who care to enjoy the privileges of the extension service of the college. Experts of the bureau of education here are watching with interest the campaign of education which the North Dakota institution has inaugurated with the idea of giving the methods wider instruction in case they prove of value. The extension service is publishing a free monthly magazine conducts movable schools, lecture courses, plans debates, sends out package libraries and organizes corn shows and educational exhibits.

CHARGES BUTTER MEN WITH AIDING CHICAGO INTERESTS

FLAING, Ill., Feb. 5.—Joseph Newman, a member of the Elgin butter board, accused members of the quotation committee of acting in behalf of the South Water street interests in Chicago when the price regulating body returned a quotation of 32½ cents. When Thomas Gallagher of Chicago objected to the price, President Charles Potter cast the deciding vote and the quotation was posted at 32 cents.

MISUSE OF MAIL CHARGED TO SOUL-MALE CULT LEADER

SAN FRANCISCO, Feb. 5.—Charles Willard Caryl, who is said to have endeavored recently to form a soul-mate cult in Denver, was arrested today by federal authorities, charged with having sent objectionable matter through the mails. The woman to whom the letters were sent was taken to the state insane asylum in June, 1911.

REPORTED INDICTMENT OF BANKER PROVES UNTRUE

FAIRBANKS, Alaska, Feb. 5.—An official statement was made here today by United States officers that John Shrame of Seattle, who was reported last Saturday as having been indicted by the federal grand jury along with four former officers of the Washington-Alaska bank of Fairbanks, was not indicted. The former officers who were indicted were charged with making a false report, which is merely a misdemeanor.

BROWN'S BRONCHITIS TROCHES

Nothing excels this simple remedy for Croup, Whooping Cough, and Coughs. Also gives relief in Bronchitis, Asthma and Lung affection. Free from opiates. Sixty years' reputation. Sold only in boxes. Sample mailed free. JOHN J. BROWN & SON, Boston, Mass.

LUISA VILLANI,
With Henry W. Savage's Production of Giacomo Puccini's Grand Opera (in English), "The Girl of the Golden West," at the Opera House, One Performance Only, Thursday Next, February 8.

PORTLAND COMPANY

(Continued From Page One.)

made and others now about completed. Will reduce the cost of treatment in that plant.

The tailings from this mill have heretofore been stacked on the surface of your property, but they are now conveyed into the mine and there used to fill old stopes. This reduces the cost of taking care of the old stopes and keeping our surface ground free for mining operations.

The Portland mine is now free from water, due to the success in cutting several water courses by the Cripple Creek Deep Drainage tunnel, and we are now preparing to conduct general mining operations on the lowest level of the mine where we have four ore bodies exposed.

The improved conditions above mentioned are all of a permanent nature and place your property in a most satisfactory position for future operations.

Profit at Victor Mill.
Our Victor mill was erected for the express purpose of treating the low grade telluride ores, without roasting, using cyanide of potassium in connection with the Portland process. The work of this mill during the past year has demonstrated that a magnificent profit can be made from ore which formerly went to the dump.

During the past year, each department of this mill has been given over very carefully, and all mechanical parts were examined to see if they could not be made to give a greater duty, and changes were made where necessary so that the capacity of each department has been made equal to our present demands on it. This has brought about an increase in the tonnage capacity of the mill. To be explicit, we were able to treat only 5,000 tons during the month of January, 1911, but in December of 1911 we treated 12,283 tons, of a gross value of \$36,422.15, or an average value of \$2.96 per ton. Of this amount \$28,533.73, or 80.5

per cent, was recovered, the cost of treatment at the mill being \$1.1317 per ton. During the entire year there was treated at this mill 120,361 dry tons of reject, or waste rock, of a gross value of \$424,483.15, averaging \$3.51 per ton. Of this amount \$345,567.88 was recovered, this being an extraction of 81.4 per cent. The net profits at the mill for the year were \$123,736.72, this profit being derived solely from what hitherto has been worthless rock. The profits of this mill will be a very important item in the future as we have a sufficient tonnage of this class of ore in sight to keep the mill running for a number of years to come.

Change in Process.

The mill management for some time past has recognized that the cyanide process is the most up-to-date method for the chemical treatment of gold ores that require roasting, and it has recommended the use of cyanide of potassium in place of chlorine gas as a solvent for gold. This substitution has been under consideration for quite a period of time, and your board of directors has carefully inquired into all the different cyanide practices in order that the process adopted might give the highest percentage of gold extraction at the lowest cost per ton of ore treated. The change is now being made and will be completed about the middle of March. The plan adopted is to treat the ore as heretofore until it reaches the hoppers over the chlorination barrels; here the ore will be diverted to tube mills and slimes in cyanide solution, the pulp passing to two 200-ton M. J. Miller presses for filtering. These presses are similar to those used at the Homestake mill in South Dakota, where a world's record for efficiency and low cost of operation has been made. The rich gold solution from these presses will be precipitated on zinc dust, which has proven so economical at your Victor plant. The installation of this new cyanide solution, the pulp passing to two 200-ton M. J. Miller presses for filtering, when completed you will have the most economically operated and up-to-date cyanide plant in the state for roasted ores.

After nine years of continuous work,

the rolls for grinding became worn out, and two new sets of 16-inch x 32-inch rolls were installed at a cost of \$4,034.13.

Some heavy expenses were incurred during the year in constructing a new arch for the No. 4 roaster, a new water line to our transformers, also a new sluice line and a pump to handle slimes. The spillway from the storage dam had to be moved and enlarged in order to carry away the surplus water from sudden freshets or floods that might occur during the rainy season. These expenses, together with the heavy expense of taking care of the tailings, have added greatly to this year's operating expenses.

Mine Department.

Mine operations for the past year have been conducted on the same lines as during the previous year. The large amount of development work accomplished resulted in opening up 20 new stopes and showing more ore in sight than was taken out during the year. The mine maintained its regular monthly shipments to our Colorado Springs mill and also supplied practically all the ore for our Victor mill. In mining the shipping grade of ore for the Colorado Springs mill, the stopes were at the same time stripped of the low grade ore for our Victor mill, thereby bringing about the removal of the low grade ore at a very moderate cost while conducting regular mining operations; otherwise the low grade ore could not have been profitably mined. The low grade ore from the mine, together with the reject from the ore houses, was practically sufficient to supply the Victor mill, but when necessary the dump ore was drawn upon to keep the mill running at its full capacity.

During the past month work was started preparatory to developing the ore that has been under water since the pumps were pulled on July 1, 1909. This ore is of better average grade than we have mined and shipped during the past year. We also have reason to believe a great deal of other ore will be opened up by prospecting de-

velopment work in different parts of the mine.

Amount of mining operations during the past year was increased by the following expenditures, made to secure economy in future operations, all of which have been included in mine operating expenses.

For several years past the taking care of the old stopes in order to permit the removal of such ore as remained and the preserving of the mine in good condition has been quite an expensive problem. After due consideration, it was decided that instead of stacking the tailings of the Victor mill on the surface, they should be conveyed to a convenient point and there dropped down into the mine to a distributing level where they could be trammed to such stopes as had been made ready for filling. For this purpose, uprisers to the surface were made from the 360-foot level of our No. 2 shaft, new drifts were driven and others were enlarged to permit the laying of a standard gauge track on which motor cars could be operated for conveying the tailings to the various stopes to be filled. The method adopted is economical and the results so far obtained from it have been satisfactory.

Last January, the powder magazine at the Granite mill adjoining the Portland property exploded, and the force of the explosion demolished our saw-mill and carpenter shop and a great deal of damage was done to all the buildings at the No. 1 shaft. The cost of repairing the damage resulting from this explosion was considerable. The general mining expenses for the year were:

The 20-inch x 32-inch air compressor at No. 1 shaft, the motive power of which had previously been electricity, was changed to cross-compound steam driven machine which brought about a decrease in the cost of operating this compressor.

The water columns were taken out of both the No. 1 and the No. 2 shafts so that the third compartment of each shaft can be used for the hoisting and lowering of men and supplies in conducting future operations in the mine. At No. 1 shaft a new landing station and chutes were built for the economical and more rapid delivery of the ore from the mine to the receiving bins. The buildings, including ore bins, have been thoroughly repaired during the year.

Life Saving Apparatus.

A 5-ton motor truck was purchased to take care of the hauling at the mine and Victor mill, and it has proven to be a very economical investment. A suitable garage was built to house the truck.

On account of the troubles arising from fires and explosions at various mines, your board of directors decided to buy a life saving and fire apparatus so that if the lives of workmen become endangered from foul air or gases, or from fire in the mine, this apparatus will provide the most effective methods known at the present time to enable the men to be rescued and removed to a place of safety. The United States mine rescue officers spent sufficient time at the mine, this apparatus will handle this apparatus, and each of the men received certificates as to their competency.

The Deep Drainage Tunnel.

Up to January 1, the known permanent drainage from the Portland mine by reason of the Deep Drainage tunnel, was about 80 feet. The total contributions of the Portland company towards draining the expense of drilling the tunnel have been about \$40,000. If our property is drained to the tunnel level, which is about 720 feet below the present workings of the mine, the cost for drainage will be less than \$100 per foot.

Suits Pending.

The suit of Serry vs. the Portland Gold Mining company for damages has been compromised in this suit a judgment for \$5,000 was originally obtained against the company, but upon the second hearing the judgment was reduced to \$3,000, and now the suit has been compromised for a cash payment of \$4,000 at a time when, with interest and cost, it amounted to about \$11,000. The case of the Portland Gold Mining company vs. the Stratton's Independence, Ltd., is still in court. There have been several trespasses made on your property by owners of

leasees of adjoining properties which will very likely be settled before long or suit will be started to recover the same, due to this company account of the trespasses made.

Financial Statement.

In the report of the secretary and treasurer you will find a statement as to the business transacted during the year 1911. Examination of same shows that a net profit of \$330,579.35 was made, which is a very satisfactory result for the year's operations.

On January 1, 1912, after all bills and costs of operation for the year had been paid, the available assets were of the cash value of \$336,068.01, consisting of ore in the bins and paid for, \$12,283.15; storehouse supplies bought and paid for, \$115,704.31; and cash in the bank, \$207,023.55. This puts us in a strong financial position for beginning the year's operations.

One great loss sustained during the year has been the death of Mr. J. S. Daniels, who for over seven years was the general manager of the mill department. However, he had under him efficient and capable men who have thoroughly versed and saturated with his ideas as to the conduct of the mill department, as the successful operation of the mills during the last year fully attests.

In conclusion, I wish to state that the members of your board of directors feel that the heads of all departments and their assistants have proven their ability to cope with all the problems pertaining to the work in their charge, and we are satisfied that their management has been as good as could be obtained under similar operating conditions. Yours very truly,

FRANK J. PECK, President.

Colorado City DEPARTMENT

Johnston, Dentist, Exchange Bear Bldg.

Dr. and Mrs. Alexander Perry have come to Denver to reside.

Horace De Moss, proprietor of the Brown Hotel restaurant, is again ill at his home in this city.

The Colorado Springs High School (singing club) will give concert in Colorado City Wednesday night.

W. P. Collins of Boulder will address the Socialist meeting at Schmidt's hall, Wednesday evening at 7:30 o'clock.

Frank Wolff of the Wolff Realty company has returned from Denver, where he spent a few days on business.

The Endeavor society of the Christian church will hold a business meeting at the home of Mrs. Frank Ferris, tonight.

Judge Louis Finn has left for Rochester, N. Y., to take up the building of an over all factory in this city, with the Western Overall company.

A pleasing surprise party was given Sunday night in honor of Mr. and Mrs. Milton Braun, at their home, 314 Lincoln avenue. About 50 were present.

The Loyal Daughters class of the Christian church will meet Thursday night at 7 o'clock, at the home of the Rev. and Mrs. A. L. Zink, 310 Jackson avenue.

The Woman's Christian Missionary society of the Christian church will meet with Mrs. J. W. Jackson, 209 Lincoln avenue, at 2:30 o'clock this afternoon.

The Fortnightly Study club will meet this afternoon at 2 o'clock, with Mrs. C. B. Allen, 1527 Grant avenue. Mrs. J. M. Dixon will read a paper on "William Post, Novelist, and Essayist." Mrs. Edward L. Ellis will give a number of recitations and the members will respond to roll call with quotations.

J. E. McCrea, a restaurant keeper of this city, is in the county jail on a complaint sworn out by J. P. Genter, with whom he was formerly interested. He is charged with trying to beat Genter out of some money paid on a

WOMAN ESCAPES DREADFUL OPERATION

How She Was Saved From Surgeon's Knife by Lydia E. Pinkham's Vegetable Compound.

Mogadore, Ohio.—"The first two years I was married I suffered so much from female troubles and bearing down pains that I could not stand on my feet long enough to do my work. The doctor said I would have to undergo an operation, but my husband wanted me to try Lydia E. Pinkham's Vegetable Compound first. I took three bottles and it made me well and strong and I avoided a dreadful operation. I now have two fine healthy children, and I cannot say too much about what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. IRENE MANGES, R. F. D. 10, Mogadore, Ohio.

Why will women take chances with an operation or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, leucorrhea, irregularities, etc. If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

WOMEN TAKE NOTICE!

A man cannot understand the torture and suffering many women endure uncomplainingly. If the majority of men suffered as much pain and endured with patience the weakening sicknesses that most women do, they would ask for immediate sympathy and look for a quick cure.

Many women have been saved from a life of misery and suffering by turning to the right remedy—Dr. Pierce's Favorite Prescription—a remedy which is safe to take because containing no narcotics, alcohol or injurious ingredients. It is an alternative extract of roots, made with pure glycerin, and first given to the public by that famous specialist in the diseases of women—Dr. R. V. Pierce, of the Invalids' Hotel and Surgical Institute of Buffalo, N. Y.

Mrs. HESSEMER.

Mrs. Lizzie M. Hessemmer, of Lincoln, Neb., 529 "C" St., says: "I send a testimonial with much pleasure so that some suffering woman may know the true worth of your remedies. I was a great sufferer from female troubles but after taking one bottle of Dr. Pierce's Favorite Prescription, which a friend advised me to take, I found myself very much improved. After taking three more bottles, and using two boxes of Dr. Pierce's Lotion Tablets, I found myself on the road to recovery. I was in poor health for five years but now I am cured."

"I hope all women suffering from female weakness will give Dr. Pierce's Favorite Prescription a fair trial."

Doctor Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules.

board bill. The case will come up in Justice Paulsen's court, this afternoon. It is said that McCreary was preparing to leave town.

This is the season of the year when mothers feel very much concerned over the frequent colds contracted by their children, and have abundant reason for it, as every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases that so often follow. Chamberlain's Cough Remedy is famous for its cures, and is pleasant and safe to take. For sale by all dealers.

SEND CHINAMAN CANADA AS EXPRESS PACKAGE

SAN DIEGO, Cal., Feb. 5.—Greg King, a Chinese laborer, who was twice caught while attempting to get into this country from Mexico, has been shipped in from Ensenada, Lower California, in charge of the Wells Fargo Express company.

When seen today, King was tagged and labeled as if he were so much merchandise. He is consigned to Vancouver, B. C. The formality of placing the Chinaman under bond, attaching a government sealing wax seal to his tag and then passing on his sure transportation through the country, was attended by the customs officials here. A bond of \$500 was required for this. In addition another \$500 was deposited with the company as payment for the head tax imposed upon Chinese by the Canadian government. This money was put up by a brother of King in San Francisco.

SAYS OCEAN CURRENTS HAVE NO EFFECT ON THE CLIMATE

SAN DIEGO, Cal., Feb. 5.—Fred A. Carpenter, in charge of the government weather bureau here gave out a written statement today in which he brands as a myth the generally accepted idea that the currents in the ocean have an effect upon weather conditions in their vicinity. This is especially true, he says, of the so-called Japanese currents.

"The recent high temperatures which have prevailed along the Alaskan coast have been caused by the air and are in no wise due to any change in currents," says the statement. "The custom of putting arrows on maps showing current directions is done more to make the maps look attractive than for any good they accomplish."

IOWA POSTMASTER SHOT

FAIRPORT, Ia., Feb. 5.—Dorrie Hershey, postmaster at Fairport, was found dead from a bullet wound through the breast in his store at an early hour this morning. Beside his body lay a shotgun. It has not been determined whether he committed suicide or was murdered. Hershey's father was murdered at Fairport in 1869.

S.S.S. NATURE'S CURE FOR RHEUMATISM

The conditions and causes which produce Rheumatism all suggest a healthful vegetable remedy as the surest and safest cure. The disease is brought about by the accumulation of uric acid, an irritating, pain-producing property in the blood. This causes a weakening and souring of the circulation which then becomes unfit for nourishing the body, while the deposits of uric acid in the nerves, muscles, joints and bones produce the pain and agony of Rheumatism. To treat the trouble with medicines containing potash or other strong minerals, is simply adding another poison to the already weak, diseased blood, sapping it of its remaining vitality, and perhaps in the end making a physical wreck of the sufferer. The one safe and only cure for Rheumatism is S. S. S. It is nature's remedy for this disease, made entirely from healthful vegetable ingredients extracted from the roots, herbs and barks of the forest and fields. S. S. S. goes down into the blood and removes every trace of the cause of Rheumatism, cleanses and purifies the circulation, and restores health and comfort to those who are suffering from this painful disease. There is but one way to be sure you are not dosing your system with mineral medicines, and that is to take S. S. S. Book on Rheumatism and any medical advice free.

Where December is like May.

Other ocean sports, too fishing for tuna, motor-boating, beach drives and the tang of salt air.

Acres of hotels and acres of roses. All in a semi-tropic environment. Try a California winter of delight. It's a thousand times better than staying housed up in the frigid East.

A Santa Fe train will take you there. Fred Harvey dining-car, dining-room and station-hotel service. On the way visit Grand Canyon of Arizona.

The California Limited—king of the limiteds—exclusively for first-class travel—runs every day— sleeper for Grand Canyon.

Santa Fe de-Luxe—extra-luxurious, Chicago and Kansas City to Los Angeles—runs once a week—America's finest train.

California East Mail—also Los Angeles Express and San Francisco Express—three daily trains—standard Pullmans, tourist sleepers and chair cars—all classes of tickets honored.

Say which train you prefer. Will mail booklets.

C. C. HOYT, City Pass Agent, 118 E. Pike Peak Ave.

Mrs. Housewife Isn't this all you are looking for in Baking Powder?

Everything that can be put into a baking powder to make it good, pure and effective will be found in Calumet. Everything and more that you desire and expect of any high-grade baking powder is positively assured you in Calumet. Then why pay exorbitant prices when Calumet will more satisfactorily attain for you a better result more delicious, lighter and better raised baking?

VERY HIGHEST GRADE—GREATEST LEAVENING POWER—NEVER FAILING RESULTS—ABSOLUTELY PURE—MODERATE COST.

Calumet is strictly a high-quality product, selling at a moderate cost. You can't get better at any price—you can't get as good for the same money.

Calumet Baking Powder is guaranteed under every pure food law both State and National. This is as much and all that can be said for the purity of any baking powder. Its superior goodness is proven in the baking. Substitutes are imitations and never as good as the original. Ask for Calumet and get it.

CALUMET BAKING POWDER

Received Highest Award World's Pure Food Exposition Chicago, 1907, thereby recognizing its supreme merits.

News of Local Courts

TWENTY-AND TWICE A BRIDE, WANTS DIVORCE

Mrs. May Frances Park, 20 years old, brought suit for divorce in the county court yesterday against Lynn L. Park. Cruelty is alleged. This is the woman's second appearance in the divorce courts. At the age of 17 years she was given a divorce in New Castle, Pa. She was married to Park in this city, October 16, 1910. She asks for \$5 a week temporary alimony and \$25 a week permanent alimony, together with \$125 to pay her attorney and costs in the case.

The case of assault against Mrs. Anna Martin was dismissed by Justice W. H. Gowdy yesterday. Miss N. Alsbury, who made the complaint, paid the costs and asked for the dismissal.

Alvin Kirkland filed suit for divorce in the county court yesterday against Fred M. Kirkland. She charges cruelty. They were married at Baton, N. M., in January, 1908.

H. M. Berry will be placed on trial in the district court this morning on a charge of grand larceny. He is said to have stolen two watches valued at \$40 from M. K. Myers, and sold them.

The case against Charles Berndt will be brought up for trial in the district court Thursday morning. He is charged with manslaughter. Brutal treatment of his wife, it is alleged, caused her death from heart disease last December.

James Portwood and Mrs. F. H. Martin will be placed on trial this morning in the district court, on a charge of selling cocaine illegally.

CARD OF THANKS

We wish to thank our many friends for their expressions of sympathy in our recent bereavement; also for the beautiful floral offerings.

MRS. FLORENCE RAMSEY,
MRS. GRACE KNAPP.

Notice to the Public

Having severed his connection from his former business partners by selling his interest in the old firm of N. W. Haas Plumbing and Heating Co., Mr. Haas wishes to announce to his many friends that he has reserved the right and title to the name N. W. Haas Pl. and H. Co., and that he also reserved the right and privilege to enter into the plumbing and heating business at any time, and he further wishes to announce that he has opened up a new place of business at No. 326 North Tejon street, with a new and complete line of plumbing and heating material, and where he is conducting a modern and up-to-date, plumbing and heating establishment. The new firm consists of N. W. Haas and his two sons, Clarence P. Haas and Charles Norbert Haas. Mr. Haas has been in the plumbing and heating business for a period of 25 years, and he has always stood for the best there was in his line, and wishes to state that he will continue to install the famous Ideal heating boilers and American Radiator, manufactured by the American Radiator Co. When in need of a plumber or fitter, ask central to give you N. W. Haas Pl. and H. Co., Main 171. Do not forget the address, 326 N. Tejon St.

LONG LIST VIOLENT DEATHS

2,650 Suicides, Murders or Accidental Killings in New York During 1911, Coroner Reports

NEW YORK, Feb. 5.—The annual report of the New York board of coroners shows that 2,700 sudden deaths were reported to the coroner's office during 1911, the total being 200 greater than in 1910. Of these, 2,000 proved to be due to natural causes, leaving 700 of a violent character. These included suicides, murders and accidents.

The homicides by shooting and assault were 137, an increase of eight. Of the 430 casualties in Manhattan in which death was charged to some other person, 30 were caused by automobiles, an increase of 28.

The streets of this city are becoming more perilous than a battlefield, the report says, and it is high time that some change in the laws governing the operation of automobiles be enacted.

Surface cars killed 72 persons, subway trains 10, elevators 68, and there were 430 suicides. Of those who died 490 are still listed as "unknown dead."

CHICAGO VIEWS PHENOMENON

CHICAGO, Feb. 5.—A cold weather phenomenon, rarely seen here, a sun dog was clearly visible yesterday. The sun dog or parhelion was said by those who saw it to be a most perfect ever recalled in this latitude. It was at its best when the sun was about half an hour high.

A circle of bright light, the lowest segment of which was hidden by the horizon, hung about the sun and there were two bars of light, one horizontal and the other perpendicular, which intersected at the center of the orb.

The phenomenon, which lasted for about two hours, was explained by the weather bureau as being the result of the reflection and refraction of the sun's light by particles of ice in the atmosphere.

It was said here last night the number of idle men in Chicago had been doubled within 48 hours. This was accounted for by all ice houses in the city having been filled and there is no further work there for the men.

TWO TONS OF DYNAMITE EXPLODE

JAISON, Mo., Feb. 5.—When a watchman employed by a railway construction company here forgot the fire he had kept burning during the night to keep a quantity of dynamite and powder warm, the magazine caught fire and the contents exploded early today. Window panes were broken for miles around. No person was injured. Two tons of the explosive blew up.

Four and one-half per cent of German university students are women.

THE THUMB PRINT
of each individual differs in appearance and can easily be identified. Not so with coal. All coal looks alike, but differs widely in the essential qualities of burning and heating. Our Curtis Lump coal has these qualities unusually strong. Try a load.
